### What is ENACTED about?

The ENACTED project - European Network of Active Civil society for Education and Diversity is a European funded project that in essence uses the concept of mentoring, first used in psychological support in order to help teachers deal with the very specific challenges of Newly Arrived Migrant Students by teaming them, the teachers, with experts and support workers in the field of Migrant integration. In this way we believe that teachers can upgrade their knowledge, skills and attitudes in order to become the most important multipliers that help societies practically closing the gap between supply and demand of support structures to migrants.

In this way teachers will be able to build cohesion within the classroom and will be able to start integrating the students and becoming most effective in their classroom.
