

3rd NEWSLETTER, 25 March 2022

Erasmus + project - Building Resilience to Address Domestic Violence

EMPOWER

The Erasmus + project - Building Resilience to Address Domestic Violence EMPOWER project partners would like to welcome you to reading our third newsletter. The last time we put together our newsletter back in October 2021 we were in a time of limbo, not knowing what the short-term future was to bring. Having adapted and changed the way we work the EMPOWER project has been able to continue successfully supporting our target group!

What have we been up to?

On March we have had 2 meetings! At the first meeting which took place on 1st of the March we discussed:

- 👍 Developed intellectual products;
- 👍 Project dissemination;
- 👍 C1 training, which will take place at the end of this month in Berlin, Germany!

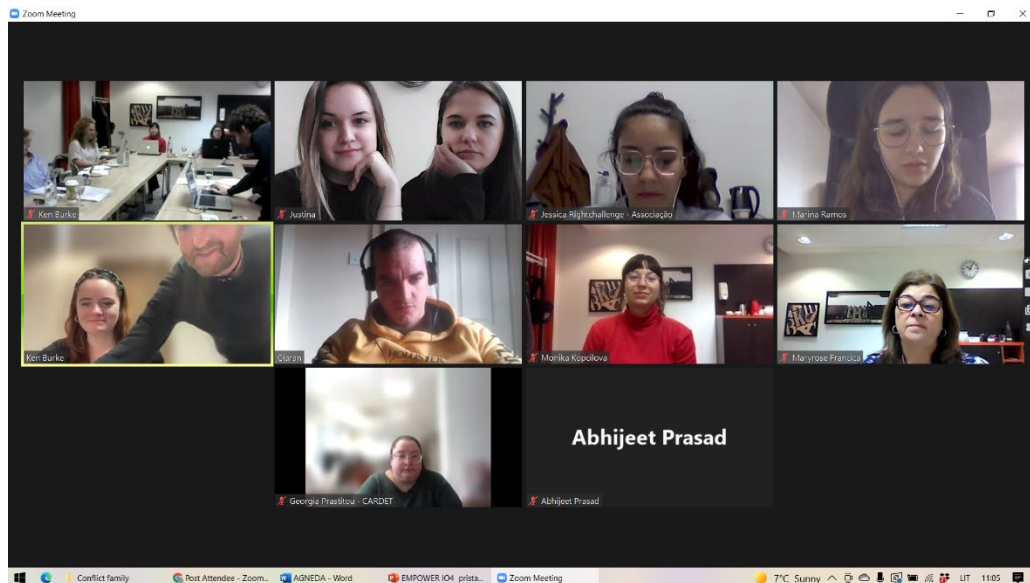

Our C1 training took place on 22 – 24 of the March.

👉 At this meeting, the partners discussed developed intellectual products and we started the C1 training.
👉 During the training, the partners were presented with prepared training plans and available theoretical and practical tasks.

👉 The main goal of this training is to introduce and learn how to work with already developed project products (audio books, comics, digital magazines), as well as after the training, educators will be able to make a map of social services for clients who suffer from domestic violence.

After completing the trainings, the participants will be able:

- 👉 recognize domestic violence in family,
- 👉 communication skills development,
- 👉 family violence theories and practice frameworks,
- 👉 the dimensions of family violence, how it is created within our society be able to use special methods and practice.
