

TEACHING GREEN NEWSLETTER

Vol.2 - June 2022

On 12 and 13 May, the partners of Teaching Green project met in the wonderful and exquisite Italian city of Florence for a two-day meeting to discuss the progress of the project. The main topic of the meeting was the development of the indicators for the outputs and training courses in September and October. At the meeting, the partners discussed the dissemination activities and any future steps.

Have a look at the project's Facebook group and website where new ideas and tools will be regularly updated.
