

UPGRAD_ME 2.0

SEPTEMBER 2022

AND IT IS A WRAP!

A very challenging project!

Creating 48 digital escape rooms accessible online wasn't an easy task.

Digital literacy is still not accessible to all, especially for some vulnerable groups that prioritize access to essential needs such as food and a roof.

Yet employability is key for a decent life

But what exactly
have we wrapped up?

So we seek the support of Aliens

elearning.upgradme.eu/courses/escape-rooms/

UPGRAD
ME 2.0
GAME
OF SKILLS

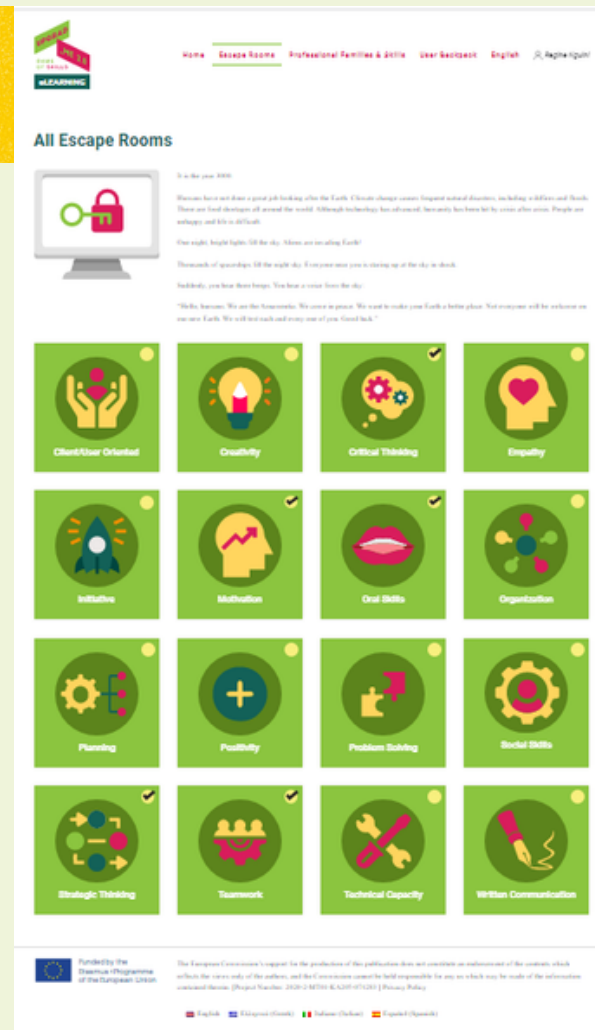

Access The e-learning platform and read the story line

It is a game about an invasion of the earth by aliens. It is the year 3000 and humans have not done a good job at looking after the earth. Climate change is causing frequent natural disasters resulting in severe food shortages.

Technology advancements have not helped the situation much, people are unhappy and life is difficult.

One night, aliens start invading the earth. Thousands of spaceships fill the night sky and everyone is in shock.

The aliens declare that they will create a new world and only the humans who pass a series of test will qualifies to reside on their new planet. Those who fail will remain on the earth and die.

Using a phone or a computer give you access to the online escape rooms...but not only ...

The gain?
Employability
Employability
Employability

A game of skills that make us stronger!
Watch the video tutorial!

...Youth and professionals working with them can make use of the career guidance handbook that compiles good practices and tips to be better equipped in the career orientation field.
